

IMPORTANT INFORMATION CONCERNING RECYCLE:

Due to rapid growth and increased participation in our recycling program, we will begin collecting your recycle materials on the same day as your garbage pickup service, effective February 1st, 2010. Please set your bin out by 7:00am because your collection time will vary with this change. It is our intention to improve our recycle program and make your service more convenient by eliminating multiple service days.

5 EASY STEPS TO RECYCLE:

1. Separate paper from bottles by placing paper in a bag. This reduces residue from bottles contaminating the paper.
2. On plastic or glass bottles, “check the neck”. If the neck of the container is smaller than the base of the container, then it is acceptable in our program.
3. Cardboard boxes need to be cut or folded into 36” x 36” sections. Our specialized trucks have buckets with two compartments. Larger boxes will not fit into those compartments.
4. Please no Styrofoam products or plastic food containers. These are not of the program. No food waste accepted either. This contaminates the products and they lose recycle value.
5. Place materials in bin and set out by 7:00am.

FACT: Cabot’s recycling program has increased 57% since last August. Last month we collected 82,620 lbs of recycle material.

GREAT JOB CABOT!!!!
